Comsar Energy Hydro awarded the concession to build HPP Mrsovo

Release date 16/10/2012

Concession commission of the Republic of Srpska awarded to Comsar Energy Hydro a concession to build the hydroelectric power plant Mrsovo.

HPP Mrsovo will be a reservoir-dam hydroelectric power plant which will use the available hydro energy potential of the lower course of the river Lim. Estimated installed capacity of HPP Mrsovo is 37.3 MW with an annual production of 140.6 GWh. It will be built on 21st kilometer upstream from the confluence of the river Lim into the river Drina, and the reservoir will be nine kilometers long. The crest of the HPP Mrsovo dam will be 192 meters long and 21 meters high with a reservoir of 10 million cubic meters of water.

The construction of the hydroelectric power plant will take three years.
